Expert talk

Fost Plus in de cloud

Shanna Cloet

IT Manager bij Fost Plus

FOST PLUS
IN THE CLOUD

A sustainable IT strategy with a 24/7 managed services and monitoring

# Fost Plus as accelerator towards sustainable packaging management

The start of our cloud journey – the "Move2Azure" project

**Q2 2018**　　　　**Q1 2019**　　　　**Summer 2019**　　　　**October 2019**　　　　**2020 - now**

The reasons we went on this journey in the first place

END OF CONTRACT

CLOUD POSSIBILITIES

The reasons we went on this journey in the first place

MODERN SERVICES

COST REDUCTION

And we've come a long way since then...

03/2020
SharePoint Online

05/2021
New BI platform

06/2021
New CRM system

07/2021
New corporate website

08/2022
New custom application

05/2023
New finance system

09/2023
New project environment

04/2024
New IAM implementation

… but discovered we had so much more to explore (again)!

Roles & responsibilities

Monitoring & logging requirements

Asset management

Device management

Cost management

Business continuity & disaster recovery

Data strategy

Security policies

Release management

Testing strategies

Documentation & handover

Change registration & approval

WE WERE IN NEED OF A CLOUD & SECURITY ROADMAP

The starting point: an assessment of 18 topics…

ASSETS

IDENTITIES

SECURITY

… which led to clearly defined projects …

2023
- User awareness
- Penetration testing
- Monitoring

2024
- Disaster Recovery
- Identity & access management
- Vulnerability management

2025
- Asset management
- Risk management
- Data classification

… and the ultimate unburdening!

Inetum LiveSOC

But we still have some challenges ahead

Management buy-in

Budget limitation

Resource availability

Changing legislation

Evolving landscape
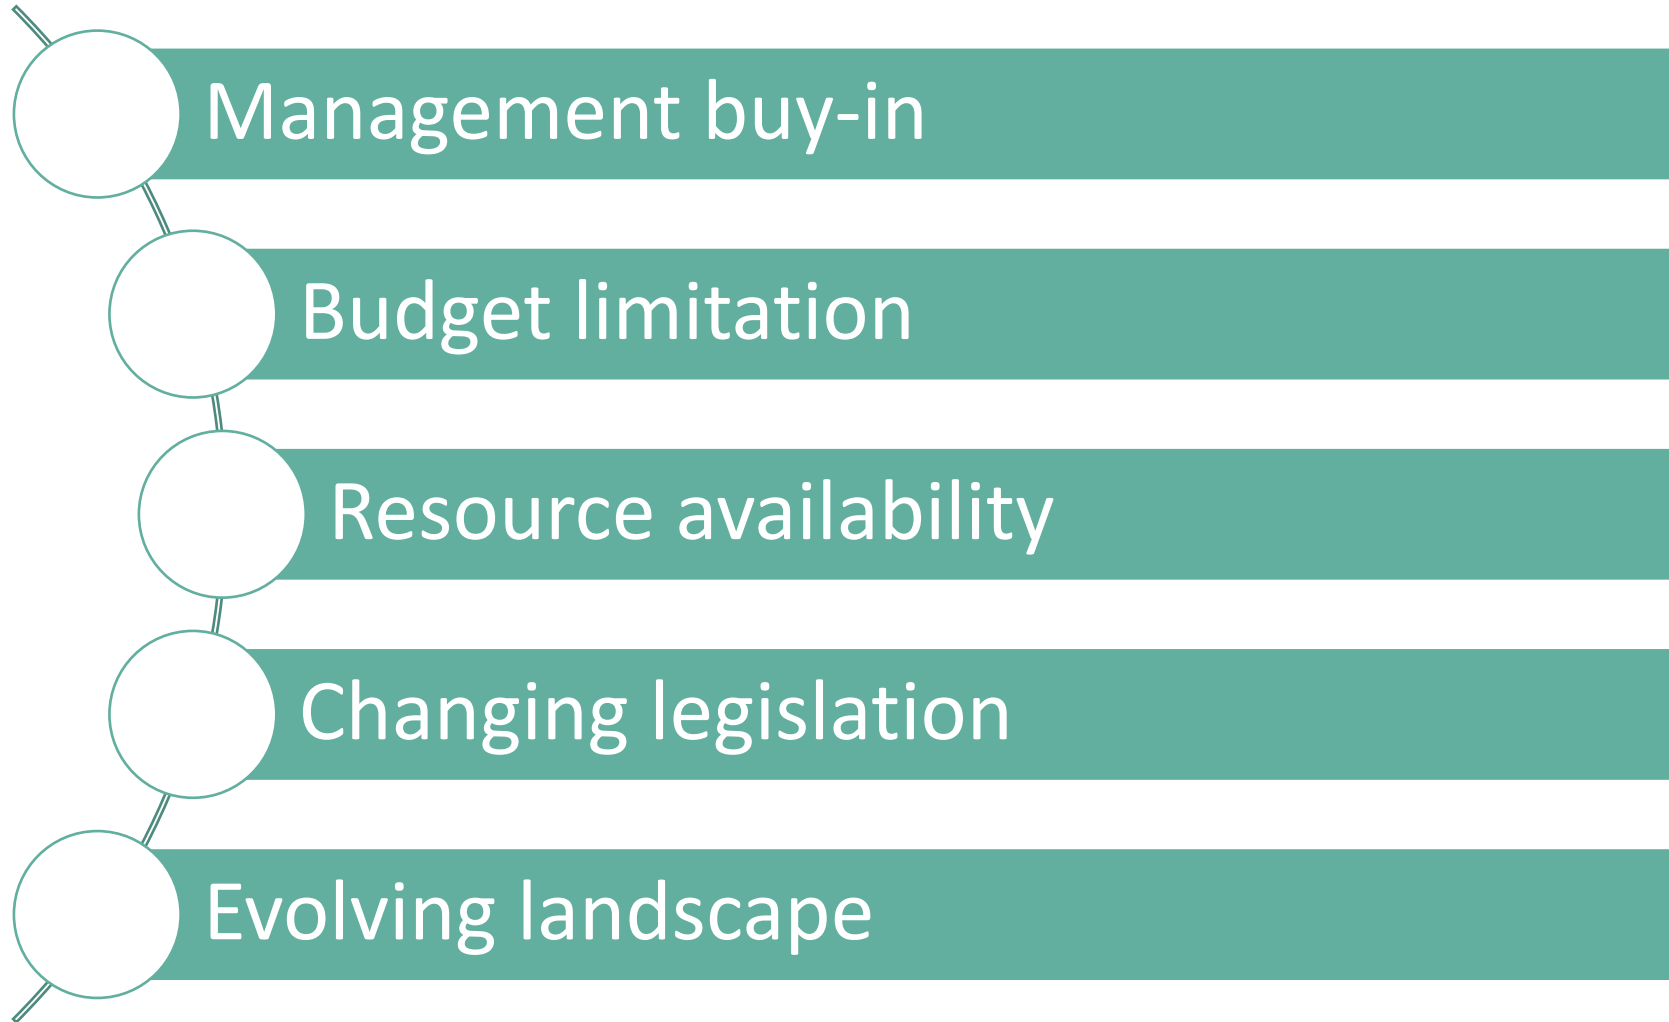

And then there was NIS2

(RE)ASSESS & (RE)EVALUATE

If I look back on our cloud & security journey…

… I wouldn't change a thing!

Questions? ☺

SHOOT!
